

FLEET MANAGEMENT

Better solution, to a better you

Transportation Solutions Custom-Fit for Your Business & Do more than move freight at the lowest cost.

To stay competitive in today's marketplace, you require a solution tailored to your business.

With cost, service, and punctuality always at the forefront, Penske identifies the optimal blend of transportation services to meet your needs. Our transportation solutions provide visibility and control over your network, map the most efficient routes to move product, and help you negotiate effectively with carriers.

Our transportation management services help:

FLEET MANAGEMENT

Better solution, to a better you

- Promote efficiency across all transportation modes
- Get more from your transportation partners
- Gain control of complex operations

Flexible Solutions and Service from PLA

With PLA, you can outsource to a dedicated team, track third-party shipments through your network, move freight via a third-party carrier – or use a hybrid solution to get the lowest cost, highest service combination.

Efficient Shipping Improves Your Bottom Line

FLEET MANAGEMENT

Better solution, to a better you

On-time delivery is critical in our business – and yours. To meet your on-time requirements consistently, we identify the best freight modes, consolidate shipments, manage carriers, and optimize air, sea and ground routes. At PLA, we optimize transportation and reduce waste providing the following benefits to your operation:

- Reduced costs
- Improved labor productivity
- Better asset utilization
- Superior customer service
